

Jake Sauter

Data Scientist

Highly motivated to transform data into quantifiable, actionable insights through clear, representative visualizations and predictive models.

Efficient independent learner and valuable team member.

Work History

2019-03 - Junior Data Scientist

Present *Northeast Information Discovery, Canastota, NY*

Increased performance of deployed Deep-Learning model while forming concise but comprehensive reports on developments

2018-06 - Undergraduate Researcher

2018-08 *Carnegie Mellon University, Pittsburgh, PA*

Created pipeline for fMRI experimental data. Used this pipeline for Statistical Analysis and visualization of results. Presented findings at poster session.

2017-06 - Undergraduate Researcher

2017-08 *Depaul University, Chicago, IL*

Worked with large medical dataset involving inter-rater variability. Acclimated into medical informatics field, accomplishing an accepted paper for poster presentation at SPIE Houston 2018.

2016-06 - Technical Coordinator / Instructor

2016-08 *iD Tech Camps, Poughkeepsie, NY*

Developed strong team work and communication skills, along with technical teaching experience over the course of 8 weeks at 2 locations.

Education

2016-06 - Bachelors of Science: Applied Math

2018-12 *SUNY Oswego - Oswego, NY*
